Subject: Let's move on !!

11/29/01

Dear Sirs:

A tentative agreement has been reached in the Microsoft Case. After all these years and expenses. We should now accept the agreed upon settlement and move on. There are so many more important things that need to be done in our country, and you guys should spend time on more important issues. Stop beating a dead horse to death again.

Get some IMPORTANT legislation passed and do the work that you were elected for. Stop wasting time on these types of issues!!!!
